Hakkımızda about us

Kurucumuz Arif Ormancı'nın hayalimdi bu ...

1980 Yılında perşembe pazarında başladı bu yolculuk. Kısa sürede sektörde adından söz ettirmeye başladı, işini ve üretimini büyötmek için plastik enjeksiyon makineleri ve kalıp yatırımı yaparak, duş sektöründe yerini sağlamlattı. Yunus ve Emrah Ormancı kardeşler, bu hayalin gerçekleşmesinde bayrağı teslim alıp firmayı 5000 m2 kapalı alana sahip bugünkü fabrikasında, 65 çalışanıyla üretiminden yönetimine, uzman kadrosu sayesinde ülke düzeyinde öz sermayesi ile öncü bir şirket haline getirdiler. Bununla da kalmayıp, Orta Doğu'da, Afrika'da ve Avrupa'da da bu başarılarını perçinlediler. İstikrarlı ve güçlü adımlarla büyüyen firmamız, bu hayalin gerçekleşmesinde emeği geçen tüm çalışanlarımızla ve siz değerli iş ortaklarımızla birlikte bu haklı gururunu yaşamaktadır. We start our long career in 1980 by the general founder Mr. Arif Ormancı in the Perşembe Pazarı looking forward with dreamy eyes.

A step behind the second to expand and enlarge the work, we started with the production of all kinds of plastic with a few machines. We have now reached the goals set by the late Mr. Arif for his children, his family and also to support local productions in Turkey. Mr. Yunus and Mr. Emrah Ormancı followed the dream to reach this day, a large factory with an area of 5000 square meter, the factory in addition to the administrative offices with 65 employees and workers. Specialized in administrative and accounting work, export and production with high experience to reach the top. With the help of the general manager and specialized cadres, the company has become a pioneer in the country level, and is known internationally Middle East, Africa and European countries as well. We began the dream of small print so that we became a large company that continued to work with steady and strong steps.
